

# The health reform journey – indicative key dates

We want to ensure everyone – particularly those working in the health sector – has visibility of key dates and access to timely information about how the health reforms are progressing, so everyone knows what to expect and when. This timeline will be updated regularly, and the dates are only indicative and subject to change.

The overall programme timeline is available on the Future of health website, [www.futureofhealth.govt.nz/timeline](http://www.futureofhealth.govt.nz/timeline)

2022

January

February

March
